Section I: English Language Skills including verbal ability

1. Which word DOES NOT have a similar meaning to OUTCOME?
  a. Affect
  b. Result
  c. upshot
  d. Effect
  e. Product

The following passage is taken from an online encyclopedia. Read it and answer the following question (You may be asked to answer several questions from a bit longer passage):

Reading comprehension is defined as the level of understanding of writing. Proficient reading depends on the ability to recognize words quickly and effortlessly. If word recognition is difficult, students use too much of their processing capacity to read individual words, which interferes with their ability to comprehend what is read. Many educators believe that students need to learn to analyze text (comprehend it) even before they can read it on their own, and comprehension instruction generally begins in pre-Kindergarten or Kindergarten. But some other educators consider this reading approach to be completely backward for very young students, arguing that the students must learn how to decode the words in a story through phonics before they can analyze the story itself.

2. Reading comprehension test helps to gauge the level of
  a. How students understand English
  b. How students understand written English
  c. How students understand writings in the language under consideration
